

**TUFLOW PRODUCTS SOFTWARE LICENCE AGREEMENT
SCHEDULE B – PRICE LIST
from September 1st, 2011**

To be read in conjunction with the latest TUFLOW PRODUCTS SOFTWARE LICENCE AGREEMENT available from www.tuflow.com
(Direct link: <http://www.tuflow.com/Downloads/Licence%20Agreements/TUFLOW%20Licence%20Agreement.pdf>) .

The applicable currency listed in this schedule is the currency of the country of the licensee's invoicing address. For countries whose official currency is not listed in this schedule, the AUD rate applies unless otherwise quoted in writing.

All prices exclude the Australian Goods and Services Tax (GST) and/or any other government taxes. The Australian GST is only applied to sales within the Commonwealth of Australia. Whether or not any other government taxes are applicable is the responsibility of the licensee.

BMT WBM reserves the right to vary the Purchase Prices and Rental Prices for the Licences and Software Locks set out in this Schedule from time to time without notice to the Licensee.

Please request a written quote by emailing sales@tuflow.com.

INTRODUCTORY TUFLOW FV DISCOUNTS – ENDS JUNE 30th, 2012

The following introductory discounts are offered for the TUFLOW FV Engine until June 30th, 2012.

- A discount of 50% for local TUFLOW FV licences, licensed to an existing TUFLOW local licence dongle.
- A discount of 20% for new local TUFLOW FV licences (ie. a new dongle is issued) for existing TUFLOW licensees.
- A discount of 20% for TUFLOW FV network licences for existing TUFLOW licensees.

The above discounting does not apply to the rental of licences.

TUFLOW PRODUCTS PRICES

Types of Software Locks

WIBU Codemeter Locks: BMT WBM issued Software Locks are WIBU (Codemeter) USB locks. These locks offer substantial benefits in terms of performance and are recognised by 32 and 64-bit versions of TUFLOW Products. For further details [view this TUFLOW Forum announcement](#) or contact info@tuflow.com.

SoftLok Locks: Prior to WIBU locks, Softlok USB or Parallel Port locks were issued. Softlok locks will continue to be supported for 32-bit versions of TUFLOW, and can still be upgraded. Softlok could not offer 64-bit support for its dongles, therefore, Softlok locks cannot be recognised by 64-bit versions of TUFLOW. **For details on exchanging an existing Softlok lock for a WIBU lock [view this TUFLOW Forum announcement](#).**

Item	Description	Purchase Price (excluding GST and/or any other taxes)			
		AUD	EUR	GBP	USD
TUFLOW Engine Licences					
TUFLOW FV* Engine Licences					
Local 1 Lock	Allows the Licensee to run up to one (1) simulation on a computer that has the Local 1 Lock (USB Key) attached.	\$6,000	€3,900	£3,650	\$6,000
Local 4 Lock	Allows the Licensee to run up to four (4) simulations on a computer that has the Local 4 Lock (USB Key) attached.	\$9,000	€5,900	£5,500	\$9,000
Additional Local 4 Locks	The Purchase Price for each additional Local 4 Lock purchased by the same Licensee (ie. same office and same organisation) is discounted.	Purchase Price less discount of: 15% for 2 nd Local 4 licence 30% for 3 rd to 10 th Local 4 licences 50% for 11 th Local 4 licence onwards.			
Multi-Core Local Locks	Local 8 – Up to 8 Simulations	\$14,400	€9,440	£8,800	\$14,400
	Local 16 – Up to 16 Simulations	\$22,500	€14,750	£13,750	\$22,500
	Other multi-core options	Price upon request			
	A 15% discount is applied if the organisation has three or more Local 4 licences.				
Network Locks (allowing multiple users and simulations across the licensee's intranet)	Network 1 - Maximum 1 Simulation	\$9,000	€5,900	£5,500	\$9,000
	Network 3 - Maximum 3 Simulations	\$18,000	€11,800	£11,000	\$18,000
	Network 5 - Maximum 5 Simulations	\$22,500	€14,750	£13,750	\$22,500
	Network 8 - Maximum 8 Simulations	\$31,500	€20,650	£19,250	\$31,500
	Network 10 - Maximum 10 Simulations	\$36,000	€23,600	£22,000	\$36,000
	Network 15 - Maximum 15 Simulations	\$45,000	€29,500	£27,500	\$45,000
	Network 20 - Maximum 20 Simulations	\$54,000	€35,400	£33,000	\$54,000
	Network 30 - Maximum 30 Simulations	\$72,000	€47,200	£44,000	\$72,000
	Network 50 - Maximum 50 Simulations	\$108,000	€70,800	£66,000	\$108,000
	Network 75 - Maximum 75 Simulations	\$144,000	€94,400	£88,000	\$144,000
	Network 100 - Maximum 100 Simulations	\$180,000	€118,000	£110,000	\$180,000
	Other network lock options	Price upon request			

* TUFLOW FV is parallelised allowing a single simulation to utilise more than one thread (ie. more than one CPU or core). The maximum total threads activated by TUFLOW FV simulations is limited to twice the maximum number of TUFLOW FV licences available across all accessible dongles. For example, for a Local 4 licence allowable combinations are: 1 simulation utilising 8 cores; or 1 simulation using 4 cores and 2 simulations using 2 cores each; or 4 simulations each utilising 2 cores each.

TUFLOW and TUFLOW FV Optional Modules

For WIBU locks, the number of module licences on a lock can be the same or less than the number of TUFLOW or TUFLOW FV Engine licences.

For example, a WIBU lock can have a TUFLOW Network 10 licence, a Network 3 M2D Module Licence and a Network 1 AD Module Licence. The Purchase Price in this case would be:

TUFLOW Network 10 price
+ 50% of a TUFLOW Network 3 for the M2D
+ 100% of a Network 1 for the AD
giving in AUD \$39,600 + 0.5*\$19,800 + 1.0*\$9,900 = \$59,400.

For Softlok locks, the number of module licences has to be the same as the number of TUFLOW licences due to the limitations of these locks.

Additional Local 4 Lock discounts only apply to modules that are added to Local 4 locks.

Modules can be purchased at a later date, and changes to the lock can be carried out remotely.

TUFLOW Modules

TUFLOW Multiple 2D Domains (M2D) Module	Allows any number of 2D domains of differing cell size, orientation and dimensions.	50% of the equivalent TUFLOW Engine Licence Price (see example above)
TUFLOW AD Module	Provides access to the advection-dispersion AD Module.	100% of the equivalent TUFLOW Engine Licence Price (see example above)
TUFLOW WQ Module	Water quality module.	Module under development.
TUFLOW MORPH Module	Available for purchase as part of a bespoke sub-consultancy to set up, apply and carry out training using the module.	100% of the equivalent TUFLOW Engine Licence Price (contact sales@tuflow.com for a customised quote)

TUFLOW FV Modules

TUFLOW FV AD Module	Performs advection dispersion simulations that can be used to simulate plumes, flushing studies, saline intrusion, etc. Includes a heat exchange formulation for thermal studies.	100% of the equivalent TUFLOW FV Engine Licence Price (see example above)
TUFLOW FV ST / MORPH Module	Carries out sediment transport simulations, including morphological update.	100% of the equivalent TUFLOW FV Engine Licence Price (see example above)
TUFLOW FV 3D Module	Allows full 3D hydrodynamic solutions.	Currently being beta-tested on projects and selected sites.
TUFLOW FV WQ Module	Water quality module.	Module under development.

TUFLOW and TUFLOW FV Annual Software Upgrades and Support				
15% Annual Software Upgrades and Support Fee	First instalment is pro-rated to the end of next June using the following factors: Order Date: Jul to Sep 0.75 Oct to Dec 0.50 Jan to Mar 0.25 Apr to Jun 1.00 (to end of next June) Thereafter, an invoice is issued around June each year to cover software upgrades and support for the next 12 months from July to June. A credit note cancelling this invoice is issued if the annual fee is cancelled.	15% of licence value <u>including</u> modules.		
	Not applicable for rentals. A surcharge of 25% on unpaid annual fees applies to cancelled licences that are reinstated.	The first instalment is multiplied by the first instalment factor.		
miTools				
MapInfo and TUFLOW Productivity Utilities (miTools)	Allows the Licensee to access the MapInfo and TUFLOW Productivity Utilities (miTools). Use of miTools requires a valid TUFLOW licence. miTools can be installed on unlimited machines within the Licensees Office(s). miTools can be purchased at a later date than the TUFLOW licence.	15% of the licensee's <u>total</u> base TUFLOW value (ie. total licence(s) value <u>excluding</u> modules)		
5% Annual miTools Software Upgrades and Support Fee	See notes for TUFLOW Annual Software Upgrades and Support above.	5% of the licensee's total base TUFLOW value (excluding any modules). The first instalment is multiplied by the first instalment factor.		
Miscellaneous				
Academic Licence Discount	Licences and the annual software upgrades and support fee are discounted for academic institutions for non-commercial use.	50% discount		
Upgrade of an Existing Lock	Upgrading a licence (eg. from a Local 4 to a Multi-Core or Network Lock) is allowed. Other licences cannot be returned or refunded as part of an upgrade.	The difference in price between the two licences. (If upgrading from a Local 4 Lock the lowest priced Local 4 licence after any multi-licence discounts is used to calculate the difference.)		
Exchange of a Softlok lock to a WIBU lock, or replacement of an existing lock	Softlok locks exchanged for a WIBU lock, or locks that are damaged and need to be replaced. Also see download exchange form . Note: If a lock becomes faulty through normal use, there is no replacement charge - please contact sales@tuflow.com .	\$350 (exc GST)	€275 (excludes any taxes)	£250 (excludes any taxes)
Loss of an Existing Lock	Note: The Licensee is responsible for taking out insurance against the loss, theft or disappearance of the Software Lock(s).	Replacement cost upon application		

Rental of Licences

Rental of additional Software Locks on a monthly basis is available to an existing TUFLOW Products Licensee on request. The Rental Price is calculated as follows:

$$\text{Rental Price} = R + D$$

where:

R = Number of months times 10% of the Purchase Price of the licence(s) *as current at the beginning of the month for which the Rental Price is being paid.*

D = BMT WBM's delivery expenses.

If at the end of the rental period the rental licence is purchased, 50% of the rental fees accrued from R above are deducted from the sale price.

The Licensee is responsible for returning the lock(s) to BMT WBM at the conclusion of the rental period.

Both SoftLok and WIBU locks are available for rental including old SoftLok locks that recognise TUFLOW releases prior to 2006-06 which are not recognised by WIBU locks.
